STATEMENT OF SUPPORT

The National Economic and Development Authority (NEDA) welcomes and supports the staging of the **City Infrastructure Philippines 2015** exhibition and conference in the Philippines, which will showcase latest developments and technologies in road and highway, rail, water drainage, and air infrastructure.

The Philippine government puts great emphasis on the country's infrastructure development agenda which is crucial for widening access to development opportunities and thus attaining and sustaining inclusive growth. NEDA encourages the use of new technologies and machinery to speed up the implementation of projects while ensuring the safety and quality of our facilities and systems.

We recognize the important role of the private sector in the country's efforts to accelerate infrastructure development. We welcome foreign and local organizations with strong infrastructure development know-how or initiatives to discuss with us and learn more about our country's Public-Private Partnership (PPP) program.

We value and encourage contributions from exhibitors and presenters, as we look forward to sharing our plans, and expanding our knowledge, network, and markets.

With this, NEDA wishes HQ Bizlink International Pte Ltd well in its forthcoming exhibition and conference.

ARSENIO M. BALISACAN

Socioeconomic Planning Secretary of the Philippines
